

SAN FRANCISCO CITYWIDE DEVELOPMENT IMPACT FEE REGISTER

(Updated as of December 1, 2021, rates effective as of January 1, 2022)

Introduction

An impact fee is a fee that is imposed by a local government on a new or proposed development project to pay for all or a portion of the costs of providing public services to the new development. Impact fees are considered to be a charge on new development to help fund and pay for the construction or needed expansion of offsite capital improvements. These fees are usually implemented to help reduce the economic burden on local jurisdictions that are trying to deal with population growth within the area. The following Planning Department's Development Impact Fee website provides additional information:

[Planning Department Impact Fee Website](#)

To see which citywide impact fees may apply to a property, access the Property Information Map, Zoning tab for more information:

Annual Fee Indexing

Most of the City's Development Impact Fees will be adjusted annually in accordance with San Francisco Planning Code Article 4, Section 409(b) based on the Annual Infrastructure Construction Cost Inflation Estimate (AICCIE) published by Office of the City Administrator's Capital Planning Group and approved by the Capital Planning Committee. The new fee schedule will be posted on December 1st each year and effective on January 1st. To obtain a list of the fees and their adjusted rates, go to the following Department of Building Inspection's (DBI) Development Impact Fee Unit website:

[DBI Impact Fee Unit Website](#)

Fees associated with other departments also may be adjusted annually on this same schedule, effective July 1 of each year, or adjusted at other times in accordance with applicable legislation. The adjusted fee rates apply to development impact fees paid on or after the effective date of any such fee adjustments, regardless of the date of permit filing or issuance of the preliminary fee assessment rate as shown on DBI's Citywide Development Fee Register for the particular project.
