San Francisco Charter Section 4.105 and Sections 2A.52 and 2A.53 of the San Francisco Administrative Code establish the requirement for General Plan Referrals for certain types of projects described in this application packet. The Planning Department or Planning Commission shall review the project and determine whether the project is in conformity with the General Plan, prior to Board of Supervisors' consideration of an ordinance or resolution approving the project.

The first few pages of this application packet consist of instructions. Please carefully review the instructions before completing the application form. Planning Department staff are available to advise you in the preparation of this application. Call (415) 558-6377 for further information.

THE GENERAL PLAN

The City's General Plan serves to guide changes to ensure that the qualities that make San Francisco unique are preserved and enhanced. The General Plan is based on a consensus concerning social, economic, and environmental issues. Adopted by the Planning Commission and approved by the Board of Supervisors, the General Plan serves as a basis for decisions that affect many aspects of our everyday lives from where we live and work to how we move about. It is both a strategic and long term document, broad in scope and specific in nature. It is implemented by decisions that direct the allocation of public resources and that shape public and private development. In short, the General Plan is the embodiment of the community's vision for the future of San Francisco.

WHAT IS THE PURPOSE OF A GENERAL PLAN REFERRAL?

A General Plan Referral is required to evaluate whether certain types of projects would be consistent with the City's General Plan Objectives and Policies. Once an application is submitted to the Planning Department, staff evaluate the proposed project and the Department or Planning Commission provides a recommendation for consideration by the Board of Supervisors regarding whether or not the proposed project would be in conformity with the General Plan. A finding of non-conformity may be overruled by a two-thirds vote of the Board of Supervisors. Early involvement of the Planning Department in the preparation of a project proposal is advisable in order to provide opportunities for staff to review the proposal and, if necessary, recommend changes to the project, and to avoid delays in responding to General Plan Referral applications.

WHEN IS A GENERAL PLAN REFERRAL NECESSARY?

The types of projects that trigger submittal of a General Plan Referral application include:

1. Property acquisition, sale or lease by the City;
2. Ordinances concerning the extension, widening, narrowing, removal, relocation, vacation, abandonment, sale or change in the use of any public way, transportation route, ground, open space, building, or structure owned by the City and County;
3. Subdivisions of land within the City and County;
4. Projects for the construction, improvement of, or demolition of City-owned buildings or structures within the City and County;
5. Programs that link the General Plan to the allocation of local, state and federal resources, the City's annual capital expenditure plan, six-year capital improvement program, a capital improvement project or a long-term financing proposal, general obligation or revenue bonds or nonprofit corporation proposals;
6. Project plans for public housing, or publicly assisted private housing in the City and County;
7. Proposed Redevelopment project plans within the City and County;
8. Substantial change to the above

HOW DOES THE PROCESS WORK ?

The Project Sponsor submits a complete General Plan Referral application. An initial fee must accompany all General Plan Referral applications. Alternately, City Departments may establish another billing arrangement (work order, etc.) with the Planning Department. Article 3.5 of the Planning Code establishes Planning Department fees for General Plan Referrals and other Planning Department applications. See the Department's current *Schedule of Application Fees* (available on-line) or call 558-6377 for the required fee amount. Time and materials charges will be billed if the initial fee (or staff time) has been exceeded. The application will not be processed unless it is filled out completely and the appropriate fees are paid in full.

After receiving a complete application with the required fee and materials, the Department will establish a case number and docket for the project. Staff assigned to the case will review the application material to determine

whether the material submitted is complete or whether additional information is required. Staff will also determine whether the proposed project is exempt from Environmental Evaluation. If the project is not exempt from Environmental Evaluation, staff will inform the applicant that a separate Environmental Evaluation application will be required. In such cases, the applicant will be responsible for submitting a complete Environmental Evaluation application and pay the required application fee.

WHO MAY APPLY FOR A GENERAL PLAN REFERRAL?

In most cases, General Plan Referral Applications are submitted by a City Department proposing approval of a project. In some cases, the applicant is a private property owner, seeking approval to utilize a resource that is under the jurisdiction of the City. In such cases, the applicant should submit the General Plan Referral application through the Department which has jurisdiction over the property or project. That Department will forward the completed General Plan Referral application, along with the fee submitted by the applicant, to the Planning Department. If the applicant is acting as the authorized agent of a project sponsor, the agent shall provide a letter signed by the applicant, acknowledging that association, as part of the General Plan Referral application.

INSTRUCTIONS:

The General Plan Referral Application includes 4 Parts. Part 1 requires Project Location and Applicant Information; Part 2 is a Project Information Checklist; Part 3 requires the applicant to provide Planning Code Section 101.1 (General Plan Priority Findings); Part 4 is an Application Checklist and Applicant Affidavit. The applicant must complete all parts of the application. Please type or print in ink, answering all questions fully. Attach additional pages if necessary. Please provide the following materials with this application:

Project Title and Description: Provide a complete description of the proposed project and its location. Provide the street address and Assessor's Block and Lot numbers. If the project is in a public right-of-way, provide the Assessor's Block/Lot numbers of properties fronting on the adjacent public right-of-way.

Authorization: In most cases, General Plan Referral applications are submitted by the City Department proposing approval of a project; in some cases, the applicant is a private property owner seeking approval to utilize a City resource or otherwise require City authorization. As stated above, in these cases, the applicant should submit the application to the City

Department with jurisdiction. If the applicant is acting as the authorized agent of a private property owner, the applicant shall provide a letter authorizing the agent to act in his/her behalf, as part of the General Plan Referral application.

Project Drawings: The application must be accompanied by plans providing information sufficient for review of the proposal. In most cases a plot plan will be required, accurately showing existing and proposed structures on both the subject property and on immediately adjoining properties, open spaces, driveways and curb cuts, on-street and off-street parking areas, bus or transit stops, trees, and land contours where relevant. Where the size or use of floor areas is material to the case, floor plans will also be required. In most cases, project drawings should be provided in 8 x 11 inch or 11 x 17 inch format.

Drawings of building elevations must be provided, if relevant to the case. Landscaping should be clearly shown on the plans. Certain types of General Plan Referral cases have additional special requirements and may require additional information to be submitted with the application; the Department staff will assist in determining whether additional materials are required. A north arrow and scale shall be shown on each plan. In most cases, the scale should be 1" = 20' for plot plans, and 1/8" = 1' 0" for floor plans, if required. Reduced copies of plot plans should be provided, not to exceed 11 by 17 inches.

Photographs: The application must be accompanied by unmounted photographs, large enough to show the nature of the property but not over 11 X 17 inches. Photographs should include a description of the image, for example, "Acquisition Site, AB 001, Lot 01." All plans and other exhibits submitted with the application will be retained as part of the permanent public record of the case.

After a project application has been assigned to a planner, the applicant (or authorized agent) will be contacted and asked to provide an electronic version of the application including associated photos and drawings.

Fees: Please refer to the *Planning Department Fee Schedule* available on-line at www.sfplanning.org or at the Planning Information Center (PIC) located at 1660 Mission Street, First Floor, San Francisco. Please note that a reduced fee is available for a streamlined referral of certain official sidewalk width changes. For questions related to the Fee Schedule, please call the PIC at (415) 558-6377. An additional fee for time and materials in excess of the initial fee maybe billed upon completion of the case.

CEQA Review: The California Environmental Quality Act (CEQA) and Chapter 31 of the San Francisco Administrative Code implementing CEQA may require an Environmental Evaluation before a decision on a General Plan Referral application may be considered.

In some cases, a General Plan Referral project may be exempt from Environmental Review. Please consult Planning Department staff to determine whether an Environmental Evaluation application must be submitted with the General Plan Referral application. A separate fee is required for environmental review if the project is not exempt from Environmental Review.

In summary:

- Answer all questions fully, please type or print in ink. Attach additional pages if necessary.
- For projects proposed in the public right-of-way, please list the adjacent Assessor's Block(s) and Lot(s) for each project block fronting the right-of-way, and street address(es).
- The completed General Plan Referral application form, along with two copies and required materials, should be sent to:

PART 3. FINDINGS

Priority General Plan Policies Findings

Proposition M was adopted by the voters on November 4, 1986. It requires that the City shall find that proposed projects are consistent with eight priority policies set forth in Section 101.1 of the City Planning Code. These eight policies are listed below. Please state how the project is consistent or inconsistent with each policy. Each statement should refer to specific circumstances or conditions applicable to the project. Each policy must have a response. **If a particular policy does not apply to the project, explain why it does not apply.**

1. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced;

2. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods;

3. That the City's supply of affordable housing be preserved and enhanced;

4. That commuter traffic not impede Muni transit service or overburden our streets or neighborhood parking;

5. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced;

6. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake;

7. That landmarks and historic buildings be preserved; and

8. That our parks and open space and their access to sunlight and vistas be protected from development.
