*P3a. Description: (Describe resource and major elements. Include design, materials, condition, alterations, size, setting, and boundaries)

1071 Alabama Street is located on a 26' x 100' rectangular lot on the east side of Alabama Street, between 22nd and 23rd streets. Built ca. 1868, 1071 Alabama Street is a 1-story over raised basement, wood frame, single family residence with no discernible architectural style. The rectangular-plan building, clad in channel drop wood siding, is capped by a gable roof. The foundation is not visible. The primary façade faces west and includes 3 structural bays. Typical fenestration consists of sliding aluminum-sash windows with simple wood surrounds. Entrances include a paneled, partially-glazed replacement wood door, set in a porch with turned wood posts and a wood balustrade. Architectural and site features include concrete posts with an ornamental metal fence and gate, a driveway, an integral garage with hinged wood garage doors, and tile stairs to the entrance.

The building appears to be in good condition.
