RE: ZONING LETTER FOR THE PROPERTY AT 35 BROSAN STREET
BLOCK: 3533 LOT: 074

Dear Mr. Sarlson:

This letter is in response to your correspondence of June 6, 2007 requesting zoning information for the property at 35 Brosnan Street. This property is located in the RM-1 (Residential, Mixed Districts, Low Density) zoning district with 50 feet height and "X" bulk limitation. We have attached a summary of the zoning controls for the district.

The subject property is authorized for twelve family dwelling units. However, the current RM-1 zoning would allow five units on this lot. Therefore, 7 units out of the existing 12 dwelling units are legal non-conforming units. The current use of the subject property is legal non-conforming.

The subject property is not in any Special Use District. Our property information report for the subject property is attached.

The Planning Code Section 181(d) and 188(b) allow a legally constructed structure that is destroyed by fire, other calamity, or by Act of God or the public enemy to be restored to its original condition and use provided that such restoration is permitted by the Building Code and is started within one year and diligently prosecuted to completion. This allows the reconstruction of a non-conforming use, a non-complying building or conditional use that has all applicable building permits and a Certificate of Occupancy on record with the Department of Building Inspection. Certificates of Occupancy are not required for buildings built prior to 1945. Uses, buildings and features not legally built or established may be replaced only with uses, buildings or features that conform to current standards.

Information regarding violations of the Building Code as well as the Certificate of Occupancy is the jurisdiction of the Department of Building Inspection. For violations please contact this department at:
