

# 11. Introduction to Comments and Responses

# CHAPTER 11

---

## Introduction to Comments and Responses

### 11.1 Purpose of the Final Environmental Impact Report

This is the first of three volumes of the Comments and Responses document, which was prepared to accompany the Draft Program Environmental Impact Report (Draft PEIR) on the San Francisco Public Utilities Commission's (SFPUC) Water System Improvement Program (WSIP or proposed program). The Draft PEIR was published by the San Francisco Planning Department on June 29, 2007 for public review and comment. The SFPUC has proposed the WSIP to increase the reliability of the SFPUC's regional water system with respect to water quality, seismic response, water delivery, and water supply and to meet water delivery needs to its customers through the year 2030. The WSIP would establish level of service goals and system performance objectives for the regional system, which provide the basis for a series of facility improvement projects, a proposed water supply option to serve increased water demands, and proposed operations during drought and nondrought periods.

The Draft PEIR described the proposed WSIP, identified the environmental consequences associated with implementation of the WSIP, specified mitigation measures to reduce significant and potentially significant impacts, and analyzed and compared the environmental effects of alternatives to the proposed program as required by the California Environmental Quality Act (CEQA). The Draft PEIR also included an analysis of three variants to the WSIP as requested by the SFPUC. The Comments and Responses document contains copies of comments received from the public and government agencies on the Draft PEIR and provides responses to those comments. The Draft PEIR (Volumes 1 to 5) together with the Comments and Responses document (Volumes 6 to 8) constitute the Final PEIR on the WSIP.

The Final PEIR is an informational document that the SFPUC must consider before approving the WSIP. The CEQA Guidelines (Section 15132) specify the following:

The Final PEIR shall consist of:

- (a) The Draft PEIR or a revision of the draft
- (b) Comments and recommendations received on the Draft PEIR, either verbatim or in summary
- (c) A list of persons, organizations, and public agencies commenting on the Draft PEIR
- (d) The responses of the lead agency to significant environmental points raised in the review and consultation process
- (e) Any other information added by the lead agency

The Comments and Responses document was prepared pursuant to the CEQA Guidelines.

## 11.2 Environmental Review Process

On June 29, 2007, the San Francisco Planning Department published the Draft PEIR on the SFPUC's WSIP for public review and comment (State Clearinghouse No. 2005092019). The public review and comment period on the document was announced as lasting from June 29, 2007 through October 1, 2007, but was later extended to October 15, 2007. During the 108-day public review period, the San Francisco Planning Department received approximately 1,500 written comments sent through the mail or by hand-delivery, fax, or email as well as approximately 200 oral comments made at six public hearings.<sup>1</sup> A court reporter was present at each of the public hearings, transcribed the oral comments verbatim, and prepared written transcripts. Appendix J (Vol. 8) includes a summary of the Draft PEIR notification and public hearing process. Public hearings were held on the following dates and at the following locations:

- September 5, 2007 – Sonora Opera House, Sonora, CA
- September 6, 2007 – Thomas Downey High School, Modesto, CA
- September 18, 2007 – Fremont Main Library, Fremont, CA
- September 19, 2007 – Avenidas Senior Center, Palo Alto, CA
- September 20, 2007 – San Francisco City Hall, Planning Commission Chambers, San Francisco, CA
- October 11, 2007 – San Francisco City Hall, Planning Commission Chambers, San Francisco, CA<sup>2</sup>

On September 30, 2008, this Comments and Responses document was distributed for review to the San Francisco Planning Commission, the SFPUC, and all entities that submitted individual comment letters on the Draft PEIR.<sup>3</sup> On October 30, 2008, following the public review period for the Comments and Responses, the San Francisco Planning Commission certified the Final PEIR—consisting of the Draft PEIR and the Comments and Responses document—and determined it fulfills CEQA requirements. Upon Final PEIR certification, the SFPUC was then able to take action on the WSIP. However, prior to making a decision on the WSIP, the SFPUC reviewed and considered the certified Final PEIR and the associated Mitigation Monitoring and Reporting Program (MMRP). Consistent with CEQA Guidelines (Section 15097), the MMRP is a program for monitoring and reporting of the measures required to mitigate or avoid significant environmental effects in order to ensure that the mitigation measures and revisions identified in the Final PEIR are implemented. By adopting the CEQA findings and the MMRP, the SFPUC was then able to approve and adopt the WSIP or any portion/modification of the WSIP analyzed

<sup>1</sup> A public hearing was also held before the San Francisco Landmarks Preservation Advisory Board on September 19, 2007. No members of the public attended the meeting, and thus a written transcript was not prepared. The comments of the Landmarks Board presented at that meeting were later submitted to the Planning Department in writing within the review period (see the L\_SF Landmarks comment letter).

<sup>2</sup> Because the comment period was extended, a second public hearing was held in San Francisco.

<sup>3</sup> Commenters who submitted form letters were notified by mail or email regarding the availability of the Comments and Responses document and the locations where the document is available for viewing; these commenters were not sent a copy of the Comments and Responses document unless requested.

in the PEIR. As indicated in the CEQA findings (attached to the front cover of Volume 1), the SFPUC adopted the Phased WSIP Variant — a variation of the original WSIP described in Chapter 3 of the PEIR on October 30, 2008, subsequent to the certification action by the San Francisco Planning Commission.

*[Additional discussion of the Phased WSIP Variant that was adopted by the SFPUC is provided in Section 13.4, Phased WSIP Variant (Vol. 7, Chapter 13).]*

## 11.3 Report Organization

Due to the quantity of comments received on the Draft PEIR, the Comments and Responses document is separated into three volumes. Volume 6 consists of this introductory chapter and Chapter 12, which contains the comments received during the comment period. Chapter 11 includes a list of all commenters, and Chapter 12 includes copies of mailed letters and faxes, printouts of emails, and transcripts of oral comments received at the public hearings. All comments are coded and numbered to correspond to the responses provided in Volume 7. Volume 8 consists of all of the appendices.

In some cases, comment letters included extensive attachments. All attachments are acknowledged and have been considered during preparation of the responses. If the attachments contain direct comments on the adequacy or accuracy of the Draft PEIR, they are included along with the comment letters in Chapter 12 and are treated the same as individual comments. However, in other instances the attachments provide generic information supporting some aspect of an agency or organization's mission (e.g., description of a city's conservation program and activities) and are not directly related to the adequacy or accuracy of the Draft PEIR; those materials are not reproduced in this document but are available for review at the San Francisco Planning Department.<sup>4</sup> The attachments received with a particular letter are indicated at the end of each comment letter in Chapter 12, and Appendix K (Vol. 8) is a summary of all attachments received as part of comments on the Draft PEIR and indicates where copies of the attachments are available.

Volume 7 of the PEIR contains the responses to comments. Chapter 13 describes the organization of responses to the comments received on the Draft PEIR and also describes changes in the WSIP proposed by the SFPUC since publication of the Draft PEIR. Chapter 14 contains master responses, which provide a comprehensive discussion of issues that received numerous comments. Chapter 15 contains the individual responses directed to each specific comment, though in some cases, the reader is referred to a master response in Chapter 14 or to another individual response. Chapter 16 contains a consolidated set of all staff-initiated changes made to the Draft PEIR that resulted from: (1) changes made in response to the comments received on the Draft PEIR; (2) changes that reflect the WSIP revisions; or (3) changes to correct errors or to clarify information presented in the Draft PEIR. Volume 8 contains supporting documentation for information presented in the Comments and Responses document.

## 11.4 Organization of Comments and List of Commenters

In order to facilitate the preparation of responses, each comment set (i.e., a letter, email, or public hearing transcript) received on the Draft PEIR was coded, then broken down into individual comments and bracketed by topic or issue area; individual comments were then numbered. The individual comments are referenced alphanumerically by comment set code and comment number and are shown in the margins. The coding for the comment sets consists of a prefix indicating the category of commenter (see **Table 11.1**) followed by the initials or acronym of an agency/

---

<sup>4</sup> The San Francisco Planning Department is located at 1650 Mission Street, Suite 400, San Francisco, California, 94103.

**TABLE 11.1**  
**COMMENTER CATEGORIES AND ABBREVIATIONS**

Category of Commenter	Coding Abbreviation
Federal Agency	F
State Agency	S
Local and Regional Agency	L
Group	SI
Citizen	C

organization or the first five letters of a person's last name. Within each comment set, the individual topics or issue areas are bracketed and numbered sequentially. For example, the first comment in the first set of comments from the Bay Area Water Supply and Conservation Agency (a local agency) is L\_BAWSCA1-01. Comments submitted via email, via U.S. Postal Service, or during a public hearing are all coded and numbered in the same way; if a single agency, interest group, or individual submitted comments more than once, a number is added at the end of the comment letter code to indicate multiple submittals by the same commenter (e.g., L\_BAWSCA2 represents a second comment set, received either in a separate letter or as part of the oral comments presented at a public hearing).

Multiple copies of two form letters were received as comments on the Draft PEIR. The text in the Form Letter 1 submittals is the same or varies only slightly and the Form Letter 2 submittals were identical; therefore, to avoid excessive duplication of responses, each form letter is treated as a single comment letter. A sample of each form letter is presented in Section 12.7 of this document. A list of the people who signed and/or submitted a form letter is shown below in Table 11.7. All Form Letter 1 submittals are included in Appendix L (Vol. 8).

In some cases, signatures on comment letters were illegible. Illegible signatures on individual citizen comment letters are identified in **Table 11.6** as Unreadable 1 through 5, and illegible signatures on form letters are identified in **Table 11.7** as Unidentified Names 1 through 69.

**Tables 11.2** through **11.7** list all persons and organizations that submitted comments on the Draft PEIR during the comment period (June 29, 2007 through October 15, 2007), as well as those comments received through December 31, 2007. Volume 7 of this Comments and Responses document provides written responses to these comments. Appendix M (Vol. 8) contains comment letters received after December 31, 2007; these comments are not responded to individually, but Appendix M includes cross reference for each of these letters to either a master response or another response that includes a discussion of related issues. **Table 11.8** lists all citizens who telephoned the SFPUC General Manager's office during the comment period to voice their concern about the proposed program. The San Francisco Planning Department acknowledges receipt of these comments, and individual written responses to these telephone messages are not included in the Comments and Responses document since they do not address the adequacy or accuracy of the environmental analysis or identify any other significant environmental issue requiring a response.
