It has been approximately one year since the Land Use Committee (LUC) of the Board of Supervisors tabled the proposed DR Reform legislation. At that time the LUC asked Planning Department staff to report back in one year on the effectiveness of several procedural improvements staff had made as part of the DR Reform policy adopted by the Planning Commission (PC) on June 18, 2009, and updated on March 04, 2010. These procedural improvements include an expanded and formalized Pre-Application process, establishment of thresholds to require review of projects by the Department's Residential Design Team, establishment of a definition for "exceptional and extraordinary circumstances", and timelines for review of DR Applications.

In preparation for the requested 1-year report, Planning staff has begun to assemble some statistics for DR cases that were heard in 2010. Attached is a list of DR cases acted on by the Planning Commission in 2010, and a summary of DR results. This document shows two significant statistics:

- 1) The Commission agreed with staff recommendation for 83% of the cases, and
- 2) The Commission voted NOT to take DR on 75% of the cases.

Also notable is the fact that of the 24 DR cases¹ acted on by the Planning Commission in 2010, the Commission agreed with staff that 92% percent did NOT meet the criteria of being "exceptional or extraordinary." To state it another way, for only 2 of the 24 cases did the Commission disagree with staff on the need for the project to be reviewed by the Commission.

Staff has been notified that Supervisor Mark Farrell is interested in sponsoring DR Reform legislation. Also, Supervisor Scott Wiener has informed Planning staff of his interest in DR Reform and will be working with Supervisor Farrell. Planning staff have provided both Supervisor Farrell and Supervisor Wiener with some background information, including some of the case reports and presentation materials developed over the course of the previous DR Reform effort, which ran from mid-2008 to June, 2010. Many of these materials can be found on the Department's DR Reform website: <http://www.sf-planning.org/index.aspx?page=1891>.

During the next few weeks, staff will develop a public outreach program in consultation with Supervisor Farrell's office. We will offer briefings to Supervisor Mar, who is the current chair of the Land Use Committee, as well as the Board President, other members of the Board and Mayor Lee. Please feel free to contact me if you have any questions: I can be reached at (415) 558-6351 or kelley.amdur@sfgov.org.

PUBLIC DR	STAFF DR	COLOR LEGEND	no DR & approve	DR & disapprove

- 1 proposing to construct a one-story, vertical addition, construct new rear deck, and alter the façade
- 2 proposing to construct horizontal and vertical additions and add a garage on an existing sf dwelling
- 3 proposing to construct a new single-family dwelling on a vacant lot
- 4 to extend the rear wall of a two-story-over-garage, single-family structure approximately 13 feet at the second and third levels.
- 5 to construct a 4-story, 3-unit residential building with 3 off-street parking spaces provided in a ground floor garage as a replacement to the home proposed for demolition
- 6 to expand the existing penthouse structure and enclose an existing roof deck to add approximately 267 square feet of enclosed habitable space to the penthouse structure
- 7 to insert a garage opening within the subject building to accommodate 6 off-street parking spaces.
- 8 proposing to replace and expand a three-story sunroom at the rear of the four-story, single-family dwelling
- 9 proposing to expand the existing 2-unit building by constructing horizontal additions at the second and a vertical expansion at the third floors to raise the height by approximately 5-feet
- 10 proposing a one story vertical addition to the existing two story single family dwelling
- 11 to replace the existing deck and stairs at the rear of the building with new decks at the 1st and 2nd floors, a spiral staircase accessing all three floors, and property line firewalls
- 12 proposing to construct a three-story over garage sf dwelling on a vacant lot.
- 13 proposing various alterations to a three-story building, including enclosure of existing stairs along the Fillmore Street facade and construction of rooftop dormers and structures
- 14 Staff Initiated DR, proposing to widen the curb cut and widen the existing garage located in the front setback area of the subject three-story, single-family house.
- 15 to construct a new sf home at the front of the subject lot - The new building would be located in front of the existing building on the lot, with a courtyard maintained between the two structures
- 16 **limited height to 33'** / to construct a 9 feet 10 inch wide addition to the east side and a two story vertical addition to the existing two story single family dwelling
- 17 proposing the construction of a new sf dwelling on a vacant lot, in conjunction with a four lot subdivision and the construction of two other new sf dwellings on Los Palmos Drive.
- 18 proposing to legalize alterations made without permit, including a dormer on the north slope of the roof, a trellis above the rear deck at the second floor level and windows at the front and rear facade
- 19 **motion to not take DR failed/** to construct a horizontal and a vertical addition on the subject building. Project also requires a rear yard variance
- 20 **approved the project with no horizontal build out in the side yard /** proposing to demolish an existing one-story rear addition and construct a three-story, flat-roofed, horizontal and vertical rear addition
- 21 **remove the proposed 4th floor /** proposing to construct a two-story vertical addition and a rear horizontal addition to an existing two-story, single-family residence resulting in a four-story, two-unit residence
- 22 **required the proposed light well to extend down to the window sill of the lower window level of 936 Elizabeth and removed the proposed fourth floor /** to construct a vertical addition, add a garage
- 23 proposing to add one residential unit, construct a rear horizontal addition and construct a one-story vertical addition onto an existing two-story-over-basement, two-family house
- 24 proposing to re-authorize a curb cut and parking pad, for which a previous permit has expired, and to construct a new gate to screen parking in the buildable area at the front of the seven-unit building
